

Grant Funding Leads

Dig your well before you thirst

The recent Pitsco Education Curriculum sales meetings were replete with information that resonates throughout the year as educators are exposed to Pitsco teaching and learning products. The key to success is preparation. For a teacher or student to be really informed, it is crucial for them to be prepared. Instructors well versed in the presentation of Pitsco Education Green curricula or Algebra, for example, will be allied with students receptive to their knowledgeable transmission of the material.

In order to initiate that exchange, Pitsco representatives will present the most recent information and experiences with the curricula so that teachers and administrators have adequate information to make the strongest choices. Armed with stimulus funds and enlightened about the advantages of our curricula from TETRIX™ to LEGO® MINDSTORMS® to STEM and beyond, educators will be prepared to carry through on the goals established by such governmental efforts as the Race to the Top grants program. If other sources of revenue are desired, the following grant opportunities are available to quench educators' economic thirst.

Abbott Fund

The Abbott Fund's primary interest is for science and health projects.

More information: <http://www.abbottfund.com/>

Alliant Energy Foundation

This foundation was formed in order to help improve the quality of life in the communities where Alliant Energy has a presence.

More information: <http://www.alliantenergy.com>
